DETAILED ACTION

Allowable Subject Matter

Claims 24 and 26-37 are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Teresa Levoie, Ph. D., on July 11, 2006.

IN THE CLAIMS:

In Claim 26, line 2, delete "mg/Kg"; and, add - - mg/kg - -.

In Claim 27, line 2, delete "mg/Kg"; and, add - - mg/kg - -.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest art prior to the disclosed invention is taught at http://thehealthstore.net/en-us/p_2.html, which refers to the product 'Ultimate Joint Repair Formula' by Dr. Guberman, as indicated in previous Office actions and prior art documents. During a telephonic interview held on July 11, 2006 with Dr. Teresa Lavoie,

the Office established that while the invoice provided by Dr. Guberman predates the filing of the present application, there is no indication of the precise ingredients contained therein the bottles sold under the name of 'Ultimate Joint Repair Formula'. Hence, the Office cannot ascertain the date of making of the referenced product or the date when the referenced product was first made available for public sale in the United States comprising ingredients which appear to be the same or essentially the same as those contained in the composition disclosed by Applicant. In view of the foregoing, while it appears that the aforementioned prior art composition is the same or essentially the same as that disclosed by Applicant; and, while it appears that the referenced product is used in a method of treatment that is the same or essentially the same as that disclosed by Applicant, the Office cannot rely upon the cited references and thereby properly establish a proper *prima facie* case of obviousness of Applicant's disclosed invention.

Finally, a thorough and extensive search of both patent and non-patent literature finds that the subject matter of Claims 24 and 26-37 is free of the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
